Workers' Compensation Program

FLORIDA
ORTHOPAEDIC
INSTITUTE®

Welcome

Our Workers' Compensation Program - *On The Job*

Our patients are the focus of all we do at Florida Orthopaedic Institute and our goal is to keep you active. We achieve this by providing you with the best orthopedic solutions for virtually every bone, joint, ligament and muscle in the body.

We are different from other orthopedic groups because our team of highly skilled, board certified physicians and surgeons has advanced training, which allows the highest standard of care. Our surgeons are also fellowship trained, which requires an additional year of study in the orthopedic subspecialties of hand, spine, joint replacement, shoulder and elbow, sports medicine, foot and ankle, and trauma. This expertise is invaluable for proper diagnosis and treatment, providing a level of care unattainable elsewhere in the Tampa Bay Area.

Our philosophy is to first try all appropriate nonsurgical methods to increase mobility and function. This may include medication, bracing, injections, physical and/or occupational therapy, or chiropractic services, all of which we provide. Then, and only then, do we suggest surgery.

We are also proud of our strong partnership with USF Health Morsani College of Medicine. In addition to my role as president and chief medical officer of Florida Orthopaedic Institute, I also chair USF's Department of Orthopedic Surgery. Together, we can capitalize on our combined strengths and advance academic orthopedics. This combination offers our patients the finest orthopedic treatment and we believe a substantial benefit to our community, patients, residents, students and faculty.

As one of Florida's largest orthopedic groups, our mission is simple: to provide excellence in clinical outcomes and an exceptional patient experience, while in an environment that fosters growth through teaching, education and research in all aspects of musculoskeletal medicine.

Please let us know if there is anything we can do to further improve your experience. We look forward to serving you!

Sincerely,

Roy Sanders, M.D.

President and Chief Medical Officer

Prompt Service

Immediate Appointments – Patients can be scheduled to be evaluated as quickly as the same day, based on the nature of the injury and physician availability.

Punctual Communication – Our FasTrack appointment line is answered within 60 seconds by a dedicated member of our Workers' Compensation department, during our normal business hours 7:00 am - 5:30pm.

Timely Reporting – DWC-25 reports and status reports are completed and faxed within 24 hours of evaluation.

Multiple Locations – Our physicians see patients out of several locations for your convenience.

On The Job Status

We recognize the importance for nurse case managers, claims adjusters, attorneys and employers to know the status of the injured worker. DWC-25 and work status reports are faxed directly to the appropriate parties the same day as the patient's appointment.

Phone: (813) 971-3304

Email: wcfatrack@floridaortho.com

Fax: 813-558-6222

(813) 910-3680 Our FasTrack appointment line is answered within 60 seconds by a dedicated member of the Workers' Compensation department.

The highly trained and skilled physicians and staff at Florida Orthopaedic Institute are committed to helping all Workers' Compensation patients get back *On The Job* as quickly and safely as possible.

On The Job is a program dedicated exclusively to evaluating and treating work-related injuries and conditions by providing the highest level of care and expertise in a timely and efficient manner.

On The Job works closely with nurse case managers, claims adjusters, attorneys and employers to ensure a comprehensive and trouble-free process. This includes the very best treatment for injured workers and the most professional attention to providers.

We Understand How Important Communication Is to You

- We provide one point of contact for all Workers' Compensation concerns.
- We employ dedicated Workers' Compensation coordinators who take pride in accurately completing the necessary paperwork.
- Our experienced staff provides treatment updates and patient statuses in a timely manner.
- Our staff has direct access to our experienced team of specialists to get the answers you need, when you need them. Through your contact, your questions and concerns will be well addressed.
