

QUESTIONS TO ASK YOUR DOCTOR ABOUT KNEE PAIN

These questions will help you talk about your knee pain with your doctor. They will also help determine if knee replacement is right for you.

- Which pain relief options may work well for me?
- How much relief will non-surgical or surgical treatment options give me?
- Am I eligible for a partial or full knee replacement?
- How is a knee replacement done?
- What should I expect after the surgery?
- How much pain will I feel after surgery, and how is it managed?
- What are the risks or complications of a knee replacement, or other treatment options?
- Will I have mobility restrictions? For how long?
- How long will I be in the hospital/surgery center?
- How long before I can return to my normal activities?
- When will I be able to drive?
- Will you be performing the surgery?
- How many knee replacements have you performed?
