

QUESTIONS TO ASK YOUR DOCTOR ABOUT SHOULDER SOCKET FRACTURES (GLENOID FRACTURES)

1. How will I know if I need surgery?
2. Are there alternatives to surgery?
3. What happens during surgery?
4. How long will the surgery last?
5. Will the surgery be outpatient or in a hospital?
6. Are there any possible complications?
7. Will I need physical therapy?
8. How long before I return to normal activities?
9. Is there anything I won't be able to do after surgery?
