

Michael Krueger, MD, FAAOS, CSCS  
Orthopaedic Surgeon

I am Dr. Michael Krueger, board-certified orthopedic surgeon (and 10-year recertification) and fellowship-trained in Sports Medicine. I have many years of sideline and game coverage from residency, fellowship and private practice dealing with middle school up to collegiate and even AA minor league professional baseball coverage. As a Division III All-American in football, I can empathize with what my patients are going through, both as an athlete and sustaining an injury, and during the recovery phase. I also treat many fracture and worker's compensation patients.
